

Coffee Doodle

What you need:

- ☐ Paper
- ☐ Brewed Coffee
- ☐ Pen/ pencil
- ☐ Paper towels
- ☐ Coffee Mug
- ☐ Shallow container
- ☐ Spoon

1. First, pour your brewed coffee into your shallow container (I used a Tupperware lid). This is what you will set your empty coffee mug in to create “rings”.

2. Next, start staining! This part can get a little messy but use your imagination and start pouring coffee on your paper using a spoon or any other tools you'd like to use.

3. Put your brewed coffee beans in a towel and dab on the paper. Use your mug to create “rings”.

4. You can even move your paper around to create “drips”, be creative with it! Your goal is to create a random coffee stain. This can be messy so keep your paper towels close.

5. Before you start creating, make sure your coffee doodle is completely dry. You can use a fine point marker or pencil to start your doodle. Think outside of the box and use your imagination to create something out of the shapes on the paper.

6. Add as much detail as you want and enjoy seeing your doodle come to life!
