

# Paper Bag Kite

## What you need:

Paper lunch bag  
Scissors  
Yarn/ twine  
Markers/ paint/ stickers  
Tape  
Streamers  
Popsicle stick/ straw

1. Decorate the paper bags using a variety of embellishments. Stickers work really well to add some fun prints and colors! They could also draw designs with markers and crayons or add polka dots and stripes using washable paints. Just make sure the paint is dry before moving on to the next step

2. Using scissors, snip a little hole on the bottom base of the bag. This will be used for the kite string.

3. Cut a piece of yarn or twine about 24 inches long. Tie one end to the middle of a popsicle stick and feed the other end through the hole in the bag. The popsicle stick will keep the kite string from pulling out when its flying (you can also use a straw like I did).

4. Attach streamers to the open end of the bag using tape.

5. Go fly your kite!
